

Dear colleagues,

Please find attached the Administrative Handbook for THIMUN Singapore 2008. Please note that there are several changes, including the Human Rights Council instead of GA 4.

Please note that we have not increased the fees and that we will be able to offer limited community housing for those travelling from further afield. If you wish to apply for this, please send a letter of motivation to our office in The Hague.

In the interest of good chairing we have decided to make the Student Officer workshop mandatory as it is in The Hague. We shall endeavour to choose Student Officers from as many participating schools as possible this year, as well as maintaining a gender balance.

The Conference will be managed from The Hague office until closer to the setting up of the committees at the Hwa Chong Institution, which has generously agreed to host the conference once again. We are most grateful for their kind hospitality. As you know, Katharina Haucke has left the Foundation and the new conference will now be managed by the The Hague office.

We hope you will enjoy preparing for the conference and look forward to seeing you in November. Please don't hesitate to contact us with any of your questions.

Yours sincerely,

Linda M. Dubock (current Chair of the THIMUN Foundation)
